Dearest Frank

Thank you for your letter I received it Saturday morning I was to write on Sunday but waited until today so I could see the woman at Social Welfare. I went this morning (took Kathy too so they will know how fuzzy and nervous still one moment she is), and saw the same lady. Her name is Miss Applebee. A new person. Today she told me ~~that~~ that she never mentioned not giving any P. 9 last time and that probably I misunderstood her when she said that some times its best to work to keep the mind off of worries. She must of had

like Mr Wilson² and other were nice when I was there.

Your Corn is the largest around here. I think even in Victory Garden its not large like yours. The stalk is not tall as last year but the ~~size~~^{ears} of corn is getting larger. It will be large good enough to pick in a week or sooner. We are waiting for you to come and eat it ~~is~~. The cucumbers are coming but not fast. I picked two already Kathy just love them. Tomatoes are full on the vine at front and the back ones are let too. Some large ones are on there too. I may be able to send ~~to~~ some when its nice ~~at~~ ripe, and ripe

Your folks are all right and my mother says to "hello" to all of you that she knows. How is Sam Horins. I could imagine the Monday night barrage. I could imagine all of you having a good laugh, like Don Kawamoto recreate home. Don wrote home for the first time yesterday. He says everything is good. Do you have six more visitors from Heart Mountain with you now? One of them ~~was~~ ^{is} ~~are~~ ^{is} ~~Kawamoto~~ ^{Tom}. Why six I don't know. Mr. Jonaha is in good health here, now, working like you use to in tofu making.

a talk with Miss Payne and thought it over. By the way Frank Miss Payne has quite her job here Saturday and am taking a job as U.R.A. secretary in Ohio. Will Frank Miss Applebee had O.K.ed the allowance so I didn't need to see Mr. Robertson. I like to tho. Like when I was there I had a nice talk with the D. A. 3/4 of hr. too and just went in to see if I could ^{get a pass to} see you. That was Saturday the day I left.

Thank you for the Powers of attorney. I was able to cash your check today. Had Wirin written you any? I haven't received any yet. I am sorry to hear that Mr. Overbaugh had left but

The other vegetables are good too I picked about five times a pot full of beans and the beets are about 2" in diameter the one I picked. Carrots are large. Only thing is that the lettuce are not good.

The green leaved one are bitter and the other regular lettuce are rotting inside. Its been so hot now days that they aren't good now.

Grant Crowls sits over the room but Kathy watches him and doesn't let him get into mischief. He is popular among the neighbors so he gets a good sun shine every day. Kathy goes to your folks ^{almost} every day. They miss her if she doesn't go.

Yes I had the letter from Minidoka but I have send it to Wiriin already. We are glad that you are pleased with Wiriin. Art is too.

Well Frank tell hello to others for me and tell Mrs. Kubota that Sochi and I went to see her (Mrs Kubota) as soon as we got back. She was glad to hear the news and looking well.

I am not worried now so darling don't worry about me. Kids send their love and also all mine too.

Love

Ann

P.S. I am sending your slippers and underwear (Art says I might as well).
