Dear Mr. Ishii -

Enclosed please find a cheque for \$25⁰⁰ in support of the Days of Remembrance and to add my name to the open letter to Sen. Hayakawa. I am not of Japanese descent, but I have been long associated with Nikkei and I lived and worked in San Francisco's Nihonmachi in 1942 where, although only nine years old, I witnessed the removal of the Japanese. That event shaped my consciousness and instilled in me the desire to study & understand race and ethnic relations and the situation of Asian Americans. Many years later this resulted in my work as a sociologist.

If my name cannot be added to the open letter, please keep the money and use it for furthering the efforts of Days of Remembrance.

Thank you

Stanford M Lyman
