Dear Miss Berggren:

We in the government are anxious to do every-  
thing possible to secure from the citizens of Santa Valley  
their suggestions regarding the development of the re-  
ception center at Bakersfield, California.

With this in view, I would appreciate very much  
your service in an advisory capacity on a committee which  
I am appointing. In this manner I feel sure that we can  
work out a program that would be beneficial to the citizen-  
ship of the valley and at the same time render the govern-  
ment a great public service.

For your information I am enclosing a list of  
the committee membership and you will notice that I have  
asked Mr. Ralph F. Herritt to serve as chairman. He will  
contact you from time to time with regard to meetings.

Your cooperation in this respect will be greatly  
appreciated.

Yours very truly,

*Tom C. Glavin*
