FIRM U. S. BONDS AT RECORD HIGH

NEW YORK, Thursday, May 21.—(AP)—United States government obligations continued their recent advance into record high ground in the bond market today as the corporate list slid along evenly at slightly higher levels.

In the final hour Treasury loans scored run-ups of around 1-32nd to 4-32nds. Widest gains were turned in by the 4s, the 3⅜s of 1943, the 3⅛s of 1949 and the 2¾s of 1945. The Treasury 3¼s of 1946 resisted the upsweep with a decline of around 3-32nds.

In the corporate sector activity expanded as the session progressed. Detroit Edison 4½s were down more than 4 points near the finish.

Rails were in demand and fractional upturns were registered by St. Paul 5s, New York Central 5s, Nickel Plate 4½s, Union Pacific 4s and Northern Pacific 4s.

Foreign loans were quiet and irregular.

no extraordinary rise in demand over usual seasonal increases is forecast and the committee recommends that any substantial addition to lumber production should follow actual demonstrated increases in demand rather than any anticipated gain.

The Forest Products division of the department, in reviewing the committee's report, points out that the "ills" of the lumber industry for several years have been due to a large extent to a lack of balance between production and demand. Continued improvement in residential building is reported, with indications that home construction this year will approach if not equal 1931.

There recently has been a substantial movement of lumber from this territory to replace stocks throughout the East which were either lost in the floods or utilized for repair and reconstruction purposes.

LICENSE ARGUMENTS

ARGUMENTS for the retention of its license to build a dam at Kettle Falls on the Columbia River will be presented Monday to the Federal Power Commission by the Washington Water Power Company of Spokane, it was announced here today. Cancellation of the license was recommended three years ago by army engineers reporting on the Grand Coulee dam project. The utility is prepared to submit next week that the ultimate height of the Grand Coulee dam has not yet been determined, that a low structure would leave Kettle Falls intact, whereas a high dam at Grand Coulee would create a lake to the Canadian border and flood the property.

In Zamora, capital of the northwestern province of the same name, a group of Leftists killed a Fascist in Mayor Square, while Rightists demonstrated in protest against "Red guards" doing police work, searching persons and homes.

In Murcia, capital of the southeastern province of the same name, members of a Rightist family clubbed to death the father of the city's mayor, and Leftists, learning of the killing, stoned the family's house, a convent and a shop owned by a Rightist.

OLYMPIA, Thursday, May 21.—(AP)—Governor Martin said today he was willing to cooperate in any way possible in an investigation of what the Ashue Grange at Wapato contended is an "alien Oriental problem" in that vicinity.

Governor Martin suggested a conference in the near future in Wapato.

"The Japanese tenant farmers have increased considerably," Moe wrote. "Due to this increase and the inability of the white farmer to meet this competition, white farmers in the Yakima Valley will operate at a serious loss this season."

"Another very serious phase," Moe said, "are the Filipinos. They are very antisocial and make regular practice of consorting with young white women."

Doctor, Charged With Murder Try, Wins One Round

TIENTSIN, Thursday, May 21.—(AP)—Druggist witnesses upheld Dr. John W. Colbert today in his contention that he used large purchases of drugs in his legitimate medical practice.

United States attorneys, trying the 50-year-old doctor in the American Court of China for an attempt to murder his young wife, said Dr. Colbert used the drugs to poison Mrs. Colbert.

The defense, however, produced witnesses to show he disposed of admittedly large purchases of the drugs in the normal treatment of charity patients.
